

# Journal of Veterinary Medical and One Health Research (JVMOHR)

**Scope**

**Established: June 2019**

**[www.lepvmbj.org](http://www.lepvmbj.org)**

- The 'JVMOHR' is an international peer reviewed open access scholarly journal primarily published yearly volumes of two issues on June and December by LEP both print and online since 2019.
- The 'JVMOHR' publishes original research papers and reviews of all the subjects of veterinary medical sciences and technology required for dual degrees (BS in Animal Sciences and DVM) and research on veterinary and human medical sciences associated with 'One Health' activities.
- The 'JVMOHR' will be unique in its discipline by setting standards in the field of veterinary, medical and allied sciences to make a multidisciplinary education and research with a complex collaborative platform 'One Health' for rapid communication of scientific knowledge of human, animals and environmental health especially pathogens transmitted among animals, humans and environment.

## **Justification of the Journal name, 'JVMOHR'**

Approximately 245 journals are presently dedicated to veterinary medical field and about 1019413 articles are being published annually all over the world (Omics International). Some important title of the veterinary medical science (animal science) and related journals are listed:

- Animal Welfare
- Archives of Animal Nutrition
- Avian Pathology
- Annals of Veterinary and Animal Sciences
- Buffalo Bulletin
- Frontiers in Veterinary Science
- Journal of Advanced Vet & Animal Research
- Journal of Animal and Plant Science
- Journal of Animal Health and Production
- Journal of Animal Research
- Journal of Applied Animal Research
- Journal of Animal and Veterinary Science
- Journal of Comparative Pathology
- Journal of Food Science & Animal Resources
- Journal of Livestock Research
- Journal of Dairy Research
- Journal of Veterinary Advances
- Journal of Veterinary Diagnostic Investigation
- Journal of Veterinary Services
- Journal of Veterinary and Animal Sciences
- Journal of Veterinary Science and Medicine
- Journal of Veterinary Medical Association
- Journal of Poultry Science
- Journal of Animal Genetics and Breeding
- Journal of Veterinary Anatomy & Histology
- Journal of Veterinary Cardiology
- Journal of Animal Reproduction
- J. of Vet Pharmacology and Therapeutics
- Journal of Veterinary Pathology
- Journal of Veterinary Immunology
- Journal of Veterinary Medical Science
- Journal of Veterinary Surgery
- Journal of Veterinary Theriogenology
- Journal of Zoo and Wildlife Medicine
- Journal of Swine Health and Production
- Journal of Veterinary and critical Care
- Journal of Veterinary Medical Education
- Journal of Veterinary Public Health
- Annual Review of Animal Biosciences
- Avian Diseases
- Avian Research
- BMC Veterinary Research
- Buffalo Journal
- Journal of Advanced Vet & Animal Science
- Journal of Agriculture and Veterinary Science
- Journal of Animal Health
- Journal of Animal Science
- Journal of Applied Animal Science
- Journal of Animal and Veterinary Advances
- Journal of Applied Animal Research
- Journal of Fisheries and Livestock Production
- Journal of Livestock Science
- Journal of Dairy Science
- Journal of Dairy Science and Technology
- Journal of Veterinary Archive
- Journal of Veterinary Science
- Journal of Vet Science and Animal Husbandry
- Journal of Veterinary Science and Technology
- Journal of Vet Science and Medical Diagnosis
- Journal of Avian Science
- Journal of Animal Nutrition
- Journal of Animal and Fisheries Science
- J. of Vet Behavior: Clinical Applications & Res.
- Journal of Veterinary Physiology
- Journal of Livestock Production
- Journal of Veterinary Parasitology
- Journal of Veterinary Microbiology
- Journal of Veterinary Medicine
- Journal of Veterinary Internal Medicine
- Journal of Vet Obstetrics and Gynecology
- Journal of Veterinary Research
- Journal of Avian Medicine and Surgery
- Journal of Small Animal Practice
- Journal of Veterinary Medical Association
- Journal of Vet Clinical Practice and Pet care
- Journal of One Health

- Livestock Research for Rural Development
- Medical and Veterinary Entomology
- Parasitology Research
- Reproduction in Domestic Animals
- Research Journal of Veterinary Practitioners
- Research Journal of Veterinary Science
- Scientific Journal of Veterinary Advances
- The Veterinary Journal (1875)
- Veterinarian
- Veterinary and Comparative Oncology
- Veterinary Dermatology
- Veterinary Medicine International
- Veterinary Microbiology
- Veterinary Pathology
- Veterinary Record
- Veterinary Research Communication
- Veterinary Scan
- Veterinary World
- Livestock Science
- One Health Journal
- Preventive Veterinary Medicine
- Research in Agriculture, Livestock and Fisheries
- Research Journal of Dairy Science
- Research in Veterinary Science
- Small Ruminant Research
- Tropical Animal Health and Production
- Veterinary Anesthesia and Analgesia
- Veterinary Clinical pathology
- Veterinary Immunology and Immunopathology
- Veterinary Medical Review
- Veterinary Parasitology
- Veterinary Radiology and Ultrasound
- Veterinary Research
- Veterinary Review
- Veterinary Surgery
- Zoonoses and Public Health

 **Mostly country name, international and /or advanced terms are used in the journal name like Bangladesh Veterinary Journal, International Journal of Veterinary Science and Technology, Journal of Advanced Veterinary and Animal Research and others.**

- **The main scopes of these veterinary journals include ‘all the aspects of veterinary science and related aspects’ except some specialized title journals like Journal of Microbiology, Journal of Parasitology and others.**

- This wide-range scope have been used by the different journals of veterinary and animal sciences probably may be due to ignoring the definition and scope of the terminology veterinary, veterinary science, animal husbandry, animal science, veterinary medicine, veterinary medical and others. In addition some have been used the term international and advanced in the title. All these inappropriate scope under the different title of the journal have been explained in the article, **“Samad MA (2017). Current status and challenges for globalisation of veterinary medical education for the ‘One Health’ programme. *Rev. Sci. Tech. Off. Int. Epiz.* 36 (3): 741-765.”**

In addition, the **International** term involves to all or at least two or more nations (Princeton’s WorldNet). Accordingly, all online journals can be considered as International Journal except the impact factor, however, some journal doesn’t have any impact factor but their title is International. Some journal added advanced word in their title whereas **advanced** in science means ‘being beyond the elementary or introductory’ (Merriam-Webster), whereas the scope of these journal include all aspects of veterinary and animal sciences. However, it is very difficult to interpret and application of the term advanced in Veterinary Science and medicine.

To present and include all the aspects of veterinary science (animal science), veterinary medicine and technology with ‘One Health’ aspects, there is a need of a comprehensive title of a journal that includes all concerned aspects and that is why, the ‘JVMOHR’ title has been selected to cover all the aspects of national, international, elementary, advanced, science, health, husbandry, production, biomedical, animal welfare, technology, research, education, extension, clinical practice, disease, hosts (animals & birds), resources, zoonoses, public health, food safety, archive and all other related aspects.

### **Reasons for selection of the 'JVMOHR'**

- Appropriately wide-range scope of the JVMOHR
- Open access publishing i.e. visibility of articles all over the world.
- Quality and potential of the concerned professional reviewers
- Impartial peer review of articles with helpful criticism
- Fruitful suggestions to improve the manuscript
- Swift processing and publication process as per schedule
- Minimum publication charges

**Therefore, publish your professional review and research articles in the right veterinary medical professional journal to upgrade the veterinary medical education and research directly for society need nationally and globally.**
